## ABSTRACT

The materials of this program are written to individualize the teaching of Spanish to English speakers, and are designed to provide as much flexibility as possible for both the teacher and student. The materials can be used for large groups, small groups, and individual work, although direct teacher-student contact is considered beneficial. This package is focused on a conversation between a television repairman and a customer. The materials included in the package are a teacher's booklet, a student's booklet, and tapes. The teacher's booklet contains specific instructions, the written copy of the taped oral presentation of the material, listening comprehension and speaking tests with answer keys, a vocabulary list, and bibliographic references, as well as the full content of the student's booklet. The student's booklet contains two sections. Section A is programmed to teach basic vocabulary and a short conversation through listening-speaking, oral reading, and writing exercises. Section B is divided into smaller parts or "cursillos" (learning modules) for students needing more practice than that offered in Section A. Each of the three "cursillos" includes performance objectives, pictures, self-check tests, listening sheets, and silent reading and writing exercises. (LG)

## INSTRUCTIONS FOR THE TEACHER

The materials of this program are written to individualize the instruction and to provide as much flexibility as possible for both the teacher and the student.

The materials can be used for large group, small group and individual work which facilitates more effective learning for the student. However, it should be clearly understood that direct teacher - student contact continues to be of primary importance.

### LARGE GROUP

The term, large group, refers to the entire class or to that portion of a class, 10-20 in number, which is working at the same rate.

### SMALL GROUP

The term, small group, refers to 3-5-6 students who are at the same point of development in their studies. The students in small group activity are capable of studying together on their own without direct supervision after receiving specific instructions from the teacher. Small groups will spontaneously arise as an outgrowth of the large group instruction.

### INDIVIDUAL WORK

This term refers to one student studying a set of materials at his own rate. He can progress as slowly or as rapidly as he is able. Under the teacher's direction he should be able to move through the materials in an orderly progression of study.

## EXPLANATION OF THE CONTENT AND SUGGESTED PROCEDURES

This package, AJUSTANDO EL EQUIPO, contains:

SECTION A

The purpose of this section is to teach a conversation through listening speaking, oral reading and writing exercises. All the exercises have one main objective which is to teach the short conversation. It is hoped that the Oral Reading and Writing Exercises will serve to clarify and reinforce the listening comprehension and speaking skills. Students who need more practice and/or who work alone should go to the Section B for further study.

Section A has:

- I. Oral General Presentation of the Material in This Package. This presentation is on tape, and is suitable for large group and small group instruction. Individual students can also use it, if preferred. (Part 1 of Tape #1).
- II. Listening Comprehension and Speaking Tests suitable for large group, small group and individual work. 80% minimum proficiency is required to pass these tests. (Part 2 of Tape #1).
- III. Oral Reading (Part 3 of Tape #1). It presents the same material taught in the Oral General Presentation. It should be given before the Reading Test. It is suitable for large group, small group and individual work.
- IV. Reading Test suitable for large group, small group and individual work. 80% minimum proficiency is required to pass this test.

V. Writing. The Writing covers all the material in the Oral General Presentation.

VI. Writing Test suitable for large group, small group and individual work. 80% minimum proficiency is required to pass this test.

### SECTION B

The purpose of this section is the same as that of Section A, to teach a short conversation. The material of the Oral General Presentation is divided into smaller parts or cursillos for students who need more practice than that offered in Section A. It is most suitable for small groups and individual students who need to work at a slower pace than that of the large group.

Section B has:

I. Listening Comprehension and Speaking: three cursillos.

These cursillos consist of exercises to develop listening comprehension and speaking skills (on Tape #2) and exercises for silent reading and writing. The Silent Reading and Writing Exercises are presented as sections of Cursillos #1 and #2. The third one is a review and has only one section on listening comprehension and speaking. Each cursillo has objectives and self-check tests for each of the skills taught.

In a few instances, students will choose not to take the reading and writing exercises and be content with achieving oral communication. This is for the teacher to decide in working with each student. These three cursillos are suitable for small group and individual work.

II. Answer Keys for Tests and Self-Check Tests on Sections A and B.

III. Vocabulary

IV. Bibliographic References.

After performing the work required in each cursillo, you will take listening comprehension and speaking self-check tests. You are to answer correctly all the items of each self-check test. ### INSTRUCTIONS

#### AJUSTANDO EL EQUIPO

(ADJUSTING THE EQUIPMENT)

The purpose of the oral exercises you are about to perform is to teach you a conversation in Spanish which takes place at a customer's house. Two persons, the repairman and the customer, are talking. You are going to do these exercises so that you can learn the Spanish expressions that you need to know for talking about adjusting a TV set. You will be asked to listen to and repeat the basic expressions while looking at pictures showing a TV set at a customer's house, the repairman and the customer.

The oral exercises are divided into three sections or cursillos. Each of the first two cursillos teaches a part of the conversation. The third one is a review of the complete conversation. After performing the work required in each cursillo, you will take listening comprehension and speaking self-check tests. You are to answer correctly all the items of each self-check test. In special cases, with the permission of the teacher, one mistake will be acceptable.

Remember that you can replay this tape as many times as necessary for you to learn the material.
